Employees of the Bratislava office at Cushman & Wakefield work in renewed and extended premises on unchanged address.

Merge of the companies Cushman & Wakefield and DTZ which was officially realized in September last year necessitated a number of major changes, which include also extension of the premises the company has chosen for a new design.

Cushman & Wakefield Project Management team under the supervision of Radoslav Blažo and Veronika Ondříková in cooperation with experienced architects of the company FORMS.ARCHITECTS created pleasant working environment. Radoslav Blažo, Head of Project Management team at Cushman & Wakefield in Slovakia says, "Architects succeeded in combining function of an open space office with relaxation zones in the small spaces that suitably complement working atmosphere. The result is pleasant working environment for our employees. Renewed premises meet the highest standards of an open space office premises."

„As a leading international company, comfort and pleasant working environment for our employees is very important. Following the latest trends in office fitout, our renewed office will be a better place for all of us “ says Cristina Dumitrache, Managing Partner at Cushman & Wakefield in Slovakia.
